○ Priyanksu28

Objective

Passionate web developer seeking a Frontend Developer (Fresher) position.
Passionate about frontend and backend development with a strong desire to learn and grow.
Eager to contribute to building efficient, scalable applications and enhance technical expertise in a professional environment.

Skills

Programming Languages: JavaScript, C/C++, PHP, SQL

Web Technologies: HTML5, CSS3, RESTful APIs

Frameworks & Libraries: React, Express.js, Redux, Tailwind CSS

Developer Tools: Git, Postman, NPM, VS Code

Database: MongoDB, MySQL, Database Design, Normalization, Indexing, Query Optimization

Experience

Assam Electricity Grid Corporation Limited (AEGCL)   **Guwahati**
Web Development Intern   *Feb 2025 – Jun 2025*
○ Developed a full-stack Asset Management System.
○ Built modules for asset assignment, issue tracking, and user management.
○ Worked on authentication, email verification, and password reset using JWT and Nodemailer.
○ Collaborated with the IT team to test and improve the system in a real-time environment.

Education

Cotton University   **Guwahati, Assam**
Master of Computer Applications   *Jul 2025*

Cotton University   **Guwahati, Assam**
Bachelor of Computer Applications   *May 2023*

Projects

Asset Management System:
○ **Tech Stack:** React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, Bcrypt
○ Developed a full-stack Asset Management System using the MERN stack.
○ Built modules for asset assignment, issue tracking, and user management.
○ Implemented authentication, email verification, and password reset using JWT and Nodemailer.
○ Collaborated with the IT team to test and deploy the system in a real-time environment.
○ **Code:** github.com/Priyanksu28/EMS

Magma Website Clone:
○ Built a pixel-accurate clone of the Magma website using HTML, CSS, JavaScript, and HTML5 Canvas.
○ Implemented interactive canvas-based animations and smooth UI interactions with JavaScript.
○ Designed a fully responsive layout and optimized assets for fast load times.
○ Practiced clean, modular code structure and ensured cross-browser compatibility.
○ **Code:** github.com/Priyanksu28/Magma-Clone

React Admin Dashboard:
- **Tech Stack:** React.js, CSS, API integration, Recharts
- Developed a responsive React admin dashboard featuring real-time data visualization with interactive charts and dynamic user tables.
- Integrated external APIs to fetch and display live user data, demonstrating practical use of asynchronous operations and data-driven UI updates.
- Implemented modern UI/UX practices, including responsive layouts and accessibility enhancements, to ensure a seamless experience across devices.

Promptly Chat App — AI-powered Conversational Assistant (Frontend Project):
- **Tech Stack:** React.js, Tailwind CSS, Gemini API, Storage: localStorage
- Built a responsive React + Vite chat app integrated with Google Gemini for AI-driven responses and code generation.
- Designed a collapsible sidebar for recent chats, a sticky input bar, and a responsive layout for a smooth user experience.
- Secured Gemini API integration using environment variables, added retry/error handling, and saved chat history in localStorage.
- **Code:** github.com/Priyanksu28/Promptly–Chat-App-React
